LOCAL MATTERS.

For the Middle Atlantic States, warmer, fair, followed by cloudy weather and local rains, variable winds, stationary or lower pressure.

FOURTH OF JULY .- The Gazette will not be published to-morrow.

SHIP BUILDING IN ALEXANDRIA-LAUNCH-ING OF THE NEW SCHOONER.-Before the war there were two ship yards (Hunter's and Goodhand's) in successful operation in this city, each employing a large number of hands, and Alexandria was quite a shipbuilding place. The war came and this important enterprise was totally destroyed. and it was several years after the cessation of hostilities between the States before any effort was made to regain the lost trade of repairing and building vessels. All steamers and vessels of any size needing repairs had to go elsewhere for want of proper facilities here. Some enterprising citizens seeing that a ship yard was greatly needed here organized the Alexandria Marine Railway and Ship Building Company, with Robert Portner, esq., President, and established, the Maine ship builders now here say, one of the best yards, both for location and equipment, in this country. All the large schooners trading with this port, after the establishment of the yard, had their repairing done here, and soon the prospects were favorable for the building of a vessel. The proposition was received with favor, and men of the North united with men of Alexandria in taking stock, and the keel of a large three-masted schooner was laid. After some months the "Robert Portner," the first vessel built in this city after the war, was launched in the presence of a large and enthusiastic crowd of spectators, who looked upon the scene with delight, in the belief that there was to be a revival of all kinds of business, and that the old days of prosperity were about to return. Then followed, some time after the "Portner," the launching of the three masted schooner "James B. Ogden," built at the yard for Northern gentlemen entirely. The "Robert Portner" was 150 feet in length, 25 feet breadth of beam, 20 feet depth of hold, with a carrying capacity of about 900 tons. This vessel did not make any returns to her owners. She was, according to a sailer on her, wrecked by a treacherous captain in foreign waters, who afterwards raised her, changed her name, and is still enjoying the fruits of his dishonesty. The "Ogden" was 160 feet in length, 36 feet breadth of beam 174 feet depth of hold, with a carrying capacity of 1,000 tons. This vessel is engaged in the coal trade, and has proved a good investment. She was at this port a few months ago. This morning between the hours of nine and ten o'clock the third and largest vessel built here since the war was successfully launched from the stocks at the ship yard (now owned and operated by Messrs. John P. Agnew & Co.) in the presence of a

crowd even larger than that which wienessed the two previous launches. About six months ago Capt. Nelson Edwards, of Jersey City, and William H. Crawford, a shipbuilder of Kennebunk Port, Maine, after visiting yards at Wilmington, Dela-ware, and other cities, arrived here for the purpose of seeing for themselves if Alexandria possessed greater advantages for shipbuilding than other places. These gentlemen found here not only a good healthy elimate, but one of the best ship yards in the country, located on the banks of a large and beautiful river, on each side of which was an abundance of timber just suited for their purposes. They returned home so favorably impressed, that Capt. Edwards, of Jersey City, Capt. Hasbrook, of New York, Mr. Mc Farland, of Baltimore, and others met and agreed to try the experiment of building a vessel here. A portion of Messrs. Agnew & Co's, yard was leased, and Mr. Crawford, was sent on to draw the model and superintend the building of the new schooner. On the 3d of March last the keel was laid, and to-day, exactly five months from the commencement, there glided off the stocks, what is said to be by old ship carpenters, one of the prettiest and staunchest vessels ever built in Alexandria. According to the measurements made by Captain L. L. Johnson, the efficient Deputy Collector of this port, the vessel is, leaving out fractions, 179 feet in length 56 feet breadth of beam over all, 18) feet depth of hold, 167 feet tonnage length, 181 feet depth of midship, 759 tons under tonnage deck; one deck, three masts, with cabin finished in hard wood, 26 feet long, 21 feet wide, 7 feet high; cabin tonnage 38 tons : poop 16 feet in length, 33 feet breadth, 3 feet deep; store room 18½ feet long, 27 feet wide, 3 feet high; tonnage capacity of poop and store room 34 tons; foreeastie 16 feet long, 14 feet wide, 6 feet high, tonnage capacity 13 tons; total registered tonnage 813; total carrying capacity 1,300 tons. The schooner which reflects credit upon the workmanship of Mr. Crawford and the men under him, is built especially for the coal trade, and will be completed here for sea, taking her first cargo from this port if the coal can be obtained. Her frame is of white oak. H. Spear & Co., formerly of Maine, but now of Charles county, Md., collected the timber in the vicinity of Glymont where they prepared it, and shipped it to this port at a small cost. She is copper fastened ten feet to water line, and is built under special survey of the highest class. She has in her 14,000 headed bolts. The vessel when ready for sea, will be fltted up with all the modern improvements. Her lower mast will be 95 feet high, mainmast 96 feet, mizzenmast 97 feet, topmasts, fore, main and mizzen 50 feet each, mizzenboom 65 feet, fore and main booms 43 feet each. She is to have wire standing rigging, two cable chains 90 fathoms each, one II, and the other II inch, Thayer's patent power windlass and improved patent power capstans. Her cost will be about \$38,000, which both Captain Edwards, the managing owner, and her builder, Mr. Crawford, say is as cheap as a vessel of her class could be built in Maine. As soon as the keel blocks were knoked away, at 9:40, the vessel glided off the stocks beautifully, amid the cheers of the spectators, and as she touched the waters of the Potomac for the first time, Mr. James L. Adams, (deputized by Capt. George W. Rock, who had been requested to perform the ceremony) broke a bottle of wine over her bow, and christened her "Ellwood Harlow," after the youngest son of Dr. J. M. Harlow, of New York. The hailing port of the Harlow will be New York, and Capt. John King, formerly of the schooner Henry Davey, is to be her commander. Nathaniel Calor of Kennebunk, Me, and J. T. Roberts, of at Washington, did the iron work on the vessel,

there being a blacksmith shop in the yard,

and Samuel McCutchen, of Maine, had

charge of the copper work. All interested

in the vessel are much pleased, and declare

their experiment a perfect success, while

Mr. Crawford, who has built and launched

49 vessels, among them the Earl P. Mason

Matilda Cranz, Julia A. Ward, Carrie Bell

and Joseph F. Baker, says he never put up

a stauncher or prettier schooner. Captain

Edwards says there is no reason why Alex-

andria should not become a ship building city. The Harlow was built in five months

by forty men, which is regarded as good

none manifested more interest than the large number of ladies present who filled the balcony of Messrs. Agnew & Co's, fine office at the yard. This building which is one of the best ship yard offices south of the Potomac, has just been completed. It is finished in hard wood, the doors are panneled in WEATHER PROBABILITIES, July 3, 1882. oak, and the wainscoating is of ten differ-

Among those who witnessed the launch

ent kinds of native wood, so that builders can, at a glance, determine what wood they prefer the cabin of their vessels finished in. Mr. Alexander Lyles of this city, was the architect and builder, and his work is prais-

ed by all who examined it.

The scene at the yard this morning was an annimated one. From Messrs, Agnew & Co's, office floated proudly the stars and stripes, and the new schooner Harlow displayed a profusion of bunting.

were served on the vessel. The schooner, with her deck load of live lumber, was then towed to the wharf, where the work of rigging her will be commenced immediately. Nearly all the Maine men engaged in building the Harlow will remain here as the building of vessels will be continued. The keel for another vessel will be shortly laid at Messrs. Agnew & Co's, yard, and there will soon be plenty of work at the new yard of the Potomac Manufacturing Company, where the putting in position of the frame for the vessel to be built there has already been commenced. Mr. Crawford has been permanently employed by Messrs. Agnew & Co., and the Potomac Manufacturing Com-pany has secured the services of Mr. Charles Ward, the son-in-law, and former partner

of Mr. Crawford in Maine. Prospects for a prosperous future for Alex-andria were never brighter.

THE FOURTH OF JULY .- To-morrow-the Fourth of July-will be observed in this city by a general suspension of business. The Banks, the Corporation offices, the Custom House and other federal offices, and all the principal business houses will be closed. There will be no meeting of the Corn Exchange, and the Postoffice will observe Sunday hours. A large number of private excursions have been arranged for, and the girls and boys anticipate a glorious time. The steamer Arrowsmith will leave here at nine o'clock for Piney Point returning tomorrow night at ten o'clock. This trip will no doubt be a delightful one. There will be three hours at Piney Point for crabbing, fishing and bathing. The Alexandria Reform Club will celebrate the day by going on an excursion to Carlin's Springs. The Washington & Western Railroad Company will run excursion trains to Leesburg.

Police News.—There were before the Mayor this morning George Ford, colored. charged with an assault on a colored boy named Dudley, and a young white man for being drunk and disorderly, and firing a pistol on the Point yesterday. Ford was discharged with a reprimand, and the young white man, whose hand was injured by the explosion of the pistol, was fined \$5.

Ella Summers, committed to jail last week in default of the payment of a fine of \$5 for disorderly conduct, was released Saturday night by the Mayor, one of her friendgiving his word for the payment of the said

fine within thirty days.

The principals in the late difficulty on Windmill Hill-two young men-were before the Mayor Saturday night, but as the evidence showed that there was no excitement at the time, and no complaint had been made, they were discharged.

YESTERDAY.-Yesterday was cool and pleasant, and the churches all had good congregations. Communion services were held in all the Episcopal, and many of the to make one ton in weight. Apply by means of a other Protestant churches. In the Second Presbyterian church quite a large number of new members were received. In the First Presbyterian church Rev. Mr. Whittlesey, ap11 of Washington, preached in the morning. Rev. J. W. Kirk preached morning and night in the M. P. church, and Elder Wm. M. Smoot conducted services in the Primitive Baptist church in the morning. All the other pulpits were filled by the resident clergy. In the afternoon there was a Gospel temperance meeting in the hall of the Reform Club; also a Free Methodist meeting on Windmill Hill. There were a good many three and five gallon patent boxed cans. No strangers here from Washington during the

Election of Officers,-At a meeting of the Hebrew Benevolent Association, held at the Synagogue, on Washington street, yesterday morning, the following were elected officers for the ensuing year: Henry Strauss, President; M. Ruben, Vice President; J. Kaufman, Secretary; I. Eichberg, Treasurer; L. Genzberger, Henry Schwarz and D. Bendheim, Trustees.

The following have also been elected officers of the Hebrew congregation : J. Kaufman, President; Joseph Brager, Vice President; Henry Strauss, Treasurer; Henry Schwarz, Secretary; I. Eichberg, E. Rosenthal and I. Schwarz, Trustees.

RUN OVER BY A HAND CAR AND BADLY INJURED.—Ernest Sullivan, little son of Edward Sullivan, in attempting to get off a hand car, which was being pushed rapidly by a number of his companions, and upon which he was riding, on Union street, this morning, was thrown on the track and the four wheels of the car passed over him, bad-ly cutting his head and legs, and otherwise bruising and injuring him about the body. The injured boy was carried to his home on lower Prince street where he was attended by Dr. Jones. His injuries while very painful are not regarded as of a serious character.

Base Ball. -- An interesting game of base ball was played in this city Saturday afternoon last between the first nine of the Alexandria Base Ball Association and the War Department nine, of Washington, resulting as follows: Association nine 5, War Department nine 6. After the game, which is said to be one of the most correct ever played here, the two nines were entertained at the restaurant of Mr. I. Rammell. The visitors expressed themselves as much pleased with the courteous manner in which they were treated by the Association.
